XFORM 9:1 WIRE KIT

58 FT RADIATOR + 17 FT COUNTERPOISE

Quick Start Guide

XFORM 9:1 WIRE KIT

A ready-to-deploy 58 ft radiator and 17 ft counterpoise for portable end-fed wire antennas. Includes the support and anchoring accessories needed for field setup. Connect to a compatible matching unit (sold separately); follow its instructions for tuning and operation.

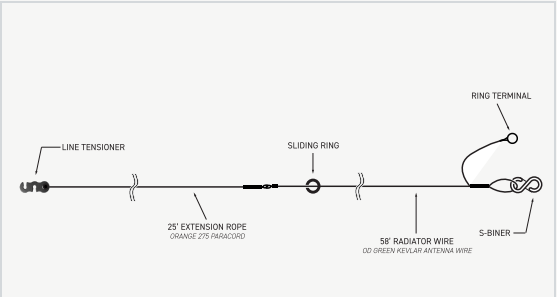

58 FT
RADIATOR WIRE

17 FT
COUNTERPOISE WIRE

25 FT
EXTENSION ROPE

58 FT RADIATOR WIRE

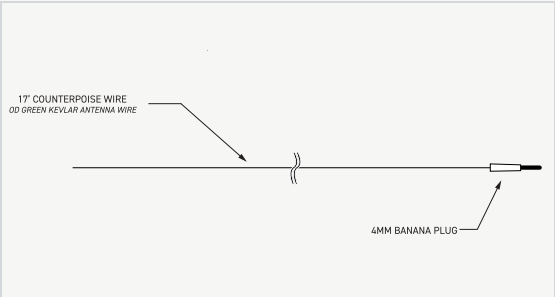

- 58 ft radiator with antenna connection.
- Sliding Ring supports the wire at an elevated point.

DEPLOY

- Route wire through the intended configuration.
- Use extension rope and tensioner to secure the far end.

17 FT COUNTERPOISE WIRE

- 17 ft counterpoise with 4 mm banana plug.
- Connects to the matching unit counterpoise port.

DEPLOY

- Lay the wire along the ground, away from foot traffic.
- Do not connect to the radiator terminal.
